OPPOSITION ARISES OVER NAMING PEART

Miners Want Local Representative on Board of Mine

Examiners

Strong opposition to the appointment of Superintendent Peart of the Rocky Mountain Fuel company, Denver, to the board of mine examiners for the Fourth judicial district, which includes El Paso county, is being expressed by coal miners and union officials here. It was said yesterday that the appointment of Thomas Thomas of this city, and a member of the last legislature, would have been more suitable to mining men who take the position that their interests would have received greater consideration

Daniel O'Leary of Indianapolis, an organizer for the United Mine Workers of America, and other union officials who have been engaged here during the last two weeks in connection with the coal strike situation are voicing the opposition to the appointment. Effort may be made to have Governor Ammons decline to accept Peart's appointment.

Say Law Is Evaded. In the opinion of members of the

United Mine Workers. Colorado has on paper, one of the best mining laws of any state in the union if it is enforced. They assert; however, that it one representative on the board of examiners. They also desiare that El Page county should have an operator as representative from this district without going outside the county. Peart, as representing the Rocky Mountain Pusi company, it was said yesterday, "is one of the biggest opnonents against whom the people and the coal industry need protection and he is objected to locally by both operators and miners."

"El Pero county is fully entitled to one representative on the board of aminers," said O'Leary. "Peart, howrepresentative of this coal field. Give an independent operator on the board. Thomas Thomas is acceptable to all interests involved. There is no great there is much concerning the enforcetoppt of the law. When the strike excitement dies away, as we hope it soon will, more attention will be devoted to this phe c. of the subject."

Question

Irritable? Exhausted? Packache? Pain? Has living become a parden?

Nervous? Excitable?

Do you know what is wrong?

If not, do you want to know what is wrong?

Answer

Such symptoms, as well as many others Smally distressing, are commonly attendant upon functional and organic discase of a distinctly feminine character.

Dr. Pierce's Favorite Prescription

is recommended as a powerful, invigorating tonic, imparting strength to the whole system and to the organs distinctly feminine. For overworked housewives and business women it is a blessing. It induces calm, refreshing sleep, and banishes mental worry and despondency.

This tonic, in liquid form, was devised over 40 years ago for the womanly system, by R. V. Pierce, M. D., and has benefited many thousand women. Now it can also be obtained in tablet form from dealers in medicine, or send 50 one-cent stamps for trial box.

Every woman ought to possess Dr. Pierce's great book, the People's Common Sense Medical Adviser, a magnificent thousand-page illustrated volume. It teaches mothers how to care for their children and themselves. It is the best doctor to have in the house in case of ethergency. Over half a million copies were sold at \$1.50 each, but one free copy in cloth covers will be sent on receipt of 31 one-cent stamps to pay the cost of wrapping and mailing only.

THE G. O. P. AND THE JUDICIAL RECALL

IF ANYONE is really inclined to take seriously the standpat talk about Colonel Roosevelt being the Republican nominee for the Presidency in 1916, let him contemplate for a moment the resolution adopted by the Republican state convention of New York the other day denouncing in the Progressive proposals to make the recall applicable to judges as well as to other, elective officers and for the so-called review of judicial decisions. There is a genuine and unmistakable reactionary ring to the language of this Republican resolution. it says:

The Republican party condemns all proposals to intimidate judges in the discharge of their daty by threets of a recall in case of an unpopular decision and all proposals to nullify the decisions of the courts at the will of a temporary popular authority through the recall of deci-

The proposition for the recall of judictal decisions is Colonel Roosevelt's own, first enuncisted by him in the famous Charter of Democracy speech before the Ohio constitutional convention in Columbus in February, 1912. This proposal, together with the proposal to make the recall ap-If table to judges, Colonel Roosevelt has supported upon nearly every platform from which he has spoken in the last eighteen months.

Thus, unconsciously, and no doubt without in the last intending to interfere with the deep laid schemes of those Republicans who have been assiduously spreading the "Roosevelt for 1916" talk, these New York reactionaries have furnished in one paragraph of their platform the complete and final answer to all of it.

THE MORALS OF MURPHY

MOST people who are keeping tabs on the Sulzer case are pretty well convinced by this time that the impeached Governor is in desperate straits. The evidence against him looks bade and his enemies are implacable. He could avert some of the disgrace of conviction and expulsion from office by resigning, but even that would not "save his fave.". For present indications are that Sulzer is guilty:

But what a sickening travesty on justice the whole proceeding is! Murphy nominated Sulzer and elected him Governor. He knew to a certainty what sort of man Sulzer was. He smiled in his sleeve at Sulzer's early fulminations against Tamman, regarding them as a part of the game, It was the same old trick to gatch. votes denouncing Tammany in order to win the support of anti-Tammany voters.

But Sulzer found the pose popular The people for at least a great many of them believed him sincere and rallied to his support. Sulzer decided it would be a fine thing for himself to lead a genuine anti-Tammany crusade which would sweep New York state clear of the grafters and thieves who were plundering it under Murphy's direction: And he made hiscrusade effective. In a few brief months following his inauguration he caused more real trouble for Murphe than anybody else has done in many, many years.

And observe, dear reader, that it is for these things, and not for what he did with this campaign funds last fall, that bulger is now being made to feel the weight of Murphy's mailed fist. The platform adopted by the New York Progressives a few days ago states the case accurately:

"Much of the evidence was a familiar detail of Tammany leaders long before the impeachment proceedings were thought of. To the Tammany mind, it was not at that time immoral. It hecame immoral only when the newly-elected governor proposed to carry out his party's platform and aid in the writing of a genuine direct primary law upon the statute books, and when investigation by the governor began to disclose great frauds. The responsibility for the shame of the commonwealth is not upon Tanimany hall alone The Marnes machine in every crisis has been a cfaithful and effective coadjutor of the Murphy mechiné.

And Colonel Roosevelt, in his speech Ad the Progressive convention at Roche fer. expressed it in these forceful words?

ernorship fight because Tammany hall is attacking the governor not for what he may have done before election, but because since election he has stood for honesty and the rights of the people."

"I am not now discussing the merits of the charges nor the evidence against Governor I am not now speaking of any matter pending before the court of impeachment nor of the allegations that will be considered by the court of impeachment. These allegations afford only the nominal reason for his impeachment. All the matters now produced before the court were well known to the leaders of Tammany hall at the time they were calling Governor Sulzer's second Andrew Jackson. They remained silent shout them until the governor refused to take his orders from the boss of Tammany half. The real reason for the governor's impeachment may not come before the body now trying him. But these real reasons these real charges must be passed on by the people.

"No intelligent and honest man doubts that the attack upon the governor, has been made not because of anything be did during the campaign or before he took office, but because through his officials, he hunted down corruption after he took office and because he championed the cause of popular government and the right of the people against the mandate of Tammany hall."

* * * * A vear ago Police Lieutenant Becker (who, incidentally, was a political henchman of Murphy's) caused the murder of a gambler named Rosenthal. As long as Rosenthal paid money tribute to Becker he was unmolested. When he ceased paying tribute he was arrested and his gambling joint closed. And when he went to the District Attorney with his story of Becker's crookedness. Becker had him killed. Rosenthal forfeited his life because he violated the cardinal principle of the underworld -he "squealed."

Here is a parallel to the Sulzer case. As long as Sulzer kept faith with Murphy he was in good standing. He not only could have misused campaign funds; he could have plundered the State treasury, as many other Tammany lieutenants are doing, and if at the same time he had remained loyal to Murphy there would have been no complaint. But he committed the unpardonable crime he "squealed" on Murphy, and now he is paying the penalty:

But Murphy might, with good reason, reflect on the fate of Becker, who is now in prison under sentence of death. There comes a time when even the most powerful corrupt boss may convict himself while trying to punish the man who "squeals" on him. Here's hoping it will be Murphy's turn next!

THE GERAN LAW

DEMOCRATS who are fond of describing themselves as Progressives, and especially the self-avowed "progressive" Democrats of New Jersey, have had a great deal to say in the last year about the merits of the great Geran primary law of that state, passed through the legislature by these "progressive" Democrats under the whip and spur of the leading "progressive" among all the Democrats Woodrow Wilson.

The Geran law had a statewide test on September 23, when New Jersey, for the first time in its history, nominated candidates for the governorship at a primary election. It then developed with unmistakable emphasis that this "progressive" primary law was chiefly distinguished by the size of the joker it had been conceating. Instead of being a device to permit and facilitate the free expression of their preference for gubernatorial candidates by the voters of the state, the Geran law proves to be artfully and admirably contrived to prevent any real expression of independent sentiment. The joker is contained in this provision:

"No person who has voted at the last primary election in one party shall be allowed to yote at the primary election of another political party the following year.

In other words, if a voter once enters a party primary in New Hersey he must continue to vote with that party as long as he desires to take part in the primaries. The only way he can escape is by forfeiting for a year his privilege and right of participating in the primaries.

President Wilson and his "progressive" Democrats in New Jersey made a signal mistake when they passed the Geran law. They did not go far enough. They should have taken one step more and made the law cover voting at elections, as well as at primaries. Thus, having provided that once a man had voted the Democratic ticket he must always continue to do so or not vote at all, they would have clinched the Democratic majority in New Jersey. for all time. Maybe. -

JOY RIDING

A for ride is a ride in an automobile propelled by gasoline, plus alcohol,

Gasoline is a very earnest, excitable fluid, but when it is used with mixed high balls, cocktails and

Joy riding is more fatal than smallpox or rallroad travel in Connecticut. If the fatalities were confined to the joy riders great good would eventually result to the nation. But it isn't. The innocent by stander isn't safe during a lov ride, unless he climbs a tree and a substantial tree at that.

Nothing produces more joy than an automobile ride with all the limits of all kinds removed. Even the funerals of the participants do not produce a very deep brand of sorrow.)

ODDS AND ENDS

"We hold that all the agencies of government belong to the people, that the constitution is theirs, and that the courts are theirs." -- A Roosevelt sentence that deserves to live.

In the past ten years the New Haven road injected millions upon millions of dollars of water into its capital stock. In the effort to pay interest on this water train service and equipment were impaired: wrecks resulted; many lives have been lost. The public has lost all confidence in the road. And now comes its new president, Howard Elliott," with the statement that, in order that public confidence in the road may be restered, it must be allowed to increase rates, so as to earn interest on its water. Which strikes us as the height of inibudence.

Mr. Elliott's proposition is like that of the thief, who, having been caught. says if he may be allowed to go with the stolen goods he will henceforth be a good and honest man-

Mr. Elliott save that, if they are not allowed to increase rates, some roads will go into bankruptey. FUUR PRISONERS JUMP FROM SHIP AND ESCAPE

NEW YORK, Oct. 1.-Four men who were to have been deported on the steamer France obtained liberty DENVER, Oct. 1.—Cattle—Receipts today by lesping 45 feet from an upper 2,000; market weak, 10c lower; beef deck to the Hudson; as the vessel lay steers. \$5,0007.75; cows and herfers at her pier. All trace of the men was et her pier. All trace of the men was \$5.00@6.75; stockers and feeders, \$5.500 lost. The fliding of two life belts and a revolver, however, led to the brites that they had perished.

The men were confined in a cabin near the hospital ward. They recaped by cutting a hole in the wall, crawling down chutes to the coal pit and climbing the emergency ladders to the upper deck. So quietly did they work that a guard stationed outside the cabin door heard nothing of their movements. All had arrived here recently as stowaways.
